SMART VIEWER

- **New Print Menu and 'Smart Viewer'** This program works best with Microsoft Office 2000 Products. 'Smart Viewer' will be included in Jonas release 10.1, it will allow you to view reports in the following 3rd party programs.
 - **Adobe Acrobat**
 - **Default HTML Browser**
 - **HTML Application (HTA)**
 - **Microsoft Access**
 - **Microsoft Excel**
 - **Microsoft Power Point**
 - **Microsoft Word**
 - **Rich Text Format**

This is an excellent new feature for our windows software. This will give you the ability to send a formatted report to MS Excel, MS Word, or to an Internet Browser such as Internet Explorer or Netscape Communicator. You can immediately e-mail these reports to another 3rd party.

The Jonas program already allows the user to cut and paste to a report to Excel or Lotus. This new 'Smart Viewer' feature will be easier for a Jonas user to send reports over to a 3rd party program.

New Smart Viewer icon will appear for specifically designed reports

Default HTML Browser View of a sample Job Cost report
